

HJA Secret Fix Brochure

HJA Fabrications Limited has found its niche by providing unrivalled technical experience in both the design and the manufacture of high quality custom made aluminium fabrications for every conceivable type of building. Custom made Aluminium & Stainless Steel products from simple designs to the more unique features specified on complex commercial and government contracts are produced.

Secret Fix Cappings - HJA Secret Fix, is the revolutionary Wall Capping System. The all aluminium wall capping system is extensively used on all types of buildings. The unique wall capping system is custom made to almost any width. HJA Secret Fix's well kept secret is in the system used to keep the capping securely fixed to the support brackets which are out of sight once the capping has been clip-fixed into position.

The Secret Fix Brackets incorporate polymer weather sealing gaskets to eliminate rain water and prevent wind rattle. Designed and independently *wind tested to 144mph!* HJA Secret Fix can be supplied to meet every possible wind loading requirement here in the UK.

For further information on any of the products, or to discuss your own custom made requirements please do not hesitate to contact us. Quotations returned within 24 hours and Nationwide Delivery Available.
